

# Accelerating Implementation of Sustainable Development Goals in Nepal (AISN)

## Identification

Project Title: Accelerating Implementation of Sustainable Development Goals in Nepal (AISN)

AMP ID: 87238117724175

IATI Identifier:

Gender Marker: Neutral

Climate Change: Neutral

Budget Head:

Status: On-Going

Status Reason:

Budget Type: Off Budget

Input: This project aims to support Nepal in achieving the SDGs and the targets of 15th plan by creating enabling environment and capacity development through accelerated implementation. Inclusion is an integral part of this initiative as is the integration of poverty, environmental management and climate change: the new sustainable development agenda reflects a greater recognition of challenges arising from depleted natural capital, climate vulnerability, gender inequality, rural-urban migration and rising resource demands, all of which disproportionately affect the livelihoods and well-being of the poor and vulnerable. The project hence will mainstream gender and social inclusion throughout the project interventions.

Output:

- Planning, budgeting and M&E systems at fee/era/ level fully aligned with the SDGs.
- SDGs aligned planning, budgeting and M &E systems in place at Provinces and local levels
- The Intergovernmental fiscal transfer mechanism incentivizes provincial and local governments to integrate the SDGs.
  - Cooperatives and public enterprises increased investment for SDG implementation
  - Private sector resources and innovative financing including global and vertical funds are mobilized to mitigate SDG financing gap

Outcome:

- Planning, budgeting, monitoring & reporting systems at all levels of government are SDG responsive and functional
- Resilient and innovative financing available for SDG implementation.

Impact: The expected results will be achieved through technical and financial support to relevant partners via policy dialogue, advocacy, capacity buildings, creating SDGs platforms, developing innovative finance mechanisms, and bringing new ideas and technology. This project will partner with various stakeholders including all levels of government, UN agencies, CSOs (in particular women's, disadvantaged and climate vulnerable groups), public enterprises, the financial sector and private enterprise for achieving the expected results. The project will work with all levels of governments including Federal, Provinces and local level. At the sub-national level, the project will work initially in four Provinces in line with UNDAF priorities and 24 Local

governments (6 in each province). Depending on the resources and the interest, this can be expanded to other provinces as well.

Treasury Type:

Humanitarian Aid: No
