Identification

Project Title:	NPL084PD - Population dynamics
AMP ID:	8723810221410
IATI Identifier:	
Gender Marker:	Indirectly
Climate Change	Relevant
Budget Head:	
Status:	On-Going
Status Reason:	
Budget Type	Off Budget
Input:	
Output:	<p>Output 1: High-quality disaggregated population data available for planning and monitoring of development interventions</p> <p>Sub Output 1: National and subnational capacities strengthened to generate, disseminate and use census data in compliance with international quality standards and best practices</p> <p>Sub Output 2: National and subnational capacity strengthened in the use of data sources to generate demographic intelligence for decision making, policy formulation and development planning</p>
Outcome:	<p>UNFPA Strategic Plan Outcome 4: Everyone, everywhere is counted, and accounted for, in the pursuit of sustainable development. The projected demographic shifts in relation to the changing age structure, internal and external migration up to 2030, will have serious implications for the development agenda and achievement of the SDGs. The availability of data and the analytical capacity to forecast population dynamics is essential for designing effective and evidence based population and sectoral policies and plans. Under the programme, national and sub-national capacities will be strengthened to generate high quality, disaggregated population data and conduct in-depth analysis to integrate population dynamics into policy making and development planning processes. It will assist in expanding the knowledge base and monitoring of the implementation of the SDGs from a population perspective.</p>
